

The Big Conversation Rant Wall September 2019

1.	Keep grass cut in Stutton Close. It is used for Picnics.
2.	Encourage Farmers and Highways to clear ditches and roads. Lewis Lane.
3.	Want more houses in Stutton? Big Joke! More houses mean more destruction of an area of outstanding beauty.
4.	<ul style="list-style-type: none"> ▪ I am used to the hourly buses and have accepted that. However, as I am a student the gaps in the timetable are extremely inconvenient. For example, after the 7.30am bus there is not another bus until almost 10am. If I miss the early bus, I'll miss the first 2-3 lessons that day unless I can get a lift. There's no 4.22pm bus from Manningtree Station which is the exact bus I need – I have to wait an extra hour at the station. ▪ Buses are terrible! ▪ Buses in the area are still not frequent enough. If I had to go to work experience or even work by bus, then I would have to go an hour before or an hour later. ▪ When roadworks close the roads and the buses don't run, I have an issue getting kids to school on the 92 bus. ▪ The bus goes to Compasses and turns round, but Stutton left stranded.
5.	Worried about the narrowness of the pavements and the camber on the road which makes the bus get uncomfortably close to me when I am walking along the pavement
6.	RHS buses ... impossible to cross the road to home when they are coming through. Have met the Bursar and hope for change. More interested/likeminded folk would help.
7.	Dreadful increases of so much lorries and speeding traffic in and around the village. Not happy that there will be more.
8.	Build bungalows to buy or rent for the older people.
9.	We need more emphasis on a vibrant village economy! (Not just the environment)
10.	<ul style="list-style-type: none"> ▪ Clean the road signs. ▪ We do not need more street furniture along these lovely country roads & lanes
11.	I have recently moved to the area and I must say I have been appalled by the weather. Fuming! Up the Boris!
12.	You say you want young people to move into the village. What about the elderly who just want to downsize to a bungalow? Young people have extended small bungalows in the village, so what's left for the elderly?
13.	Babergh give no thought to the public who live in villages. They build what and where they want.
14.	Single use plastic. Where do I start? Well, first of all, we are definitely just killing ourselves and it is so stupid. Then, secondly, the big bottles of pop are single use and yet I don't think that any one person is going to be able to finish one of those bottles. That means we are going to have to use it again, completely forgetting the fact that is single use and dissolves gradually. Thirdly, sometimes they call this biodegradable, but if it takes 30 years to degrade, is it really biodegradable?
